Hello, We are SquidX Agency! We are a design agency specializing in ***Product Design***, Brand Design, and ***Web Design*** and ***No-code development***. We help business improve their brand image through our service.

After three months of working with us, every client has increased their profit more than what they spend with us.

We have something that can boost your sales and brand *value!*

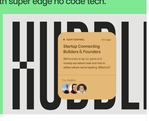

App Design
We design, refine, and make your app shine above the competition.

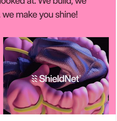

Web Design
We design sleek and responsive website, web apps for any business challenge.

No-Code Development
We design frictionless websites with super edge no code tech.

Branding
We make brands look the way they should be looked at. We build, we showcase, we make you shine!

We had the privilege to work with some of the peeps you might *know of.*

omni · Framer · Figma · Funny · BIGVU · Bahamas · Enlarz · Flok

In our design journey, we have served many great businesses individually, like **Breakdance**, **Replo**, **Matchmade**, **Bigvuu**, and many more. Interestingly, after three months of working with us, every client has increased their profit by more than what they spent with our agency.

So maybe you are the one we are ***searching for!***

All these are done with two ambitious *mind and thrive.*
